

# ENVIRONMENTAL PROFESSIONAL (EP) Educational Assessments

If you have a degree or diploma outside Canada, the USA, the UK, Australia, or New Zealand, you'll need to obtain proof of Canadian equivalency with an educational assessment.

An educational assessment is an additional cost to your EP application and will cost approximately \$50-\$150 (plus applicable taxes).

Once you've paid for your application and are completing the application form, there are three options available for your educational assessment:
