Become a Certified BEAHR Trainer

If you have minimum 4 years of professional environmental work experience, please email beahr@eco.ca and we will provide you with step-by-step instructions to on how to apply to become a Certified BEAHR Trainer!

Host BEAHR Training in Your Community

ECO Canada developed a customized training program specific to the goals and vision of the community. ECO Canada will organize everything for you to ensure training success. As well, we can provide information to help you locate funding for your delivery.

Wage Subsidy Funding for BEAHR Graduates

ECO Canada has Wage Subsidy Funding Opportunities for BEAHR Graduates, where eligible applicants can receive up to \$15,000 of their salary to be subsidized by ECO Canada when hired on by an approved host company! (visit www.eco.ca/wage-subsidy-programs/) (Please note this is based on available funding; BEAHR graduates must be under the age of 31 as this is a youth funding program, funding is first-come first-served.)

Develop local environmental competencies & foster green careers in your community! BEAHR Courses provide introductory skills to those who want to start their environmental career path.
